1. ABOUT THE MOBILE BROADBAND SERVICE DESCRIPTION

About our Customer Relationship Agreement

1.1 This is the Mobile Broadband Service Description of our Customer Relationship Agreement under which we supply a Mobile Broadband Service to you.

The General Terms of our CRA, and the other documents listed in clause 1.2 of the General Terms, also apply to the Mobile Broadband Service.

Service Options

1.2 The Service Options for the Mobile Broadband Service are set out in the Pricing Schedule.

2. THE MOBILE BROADBAND SERVICE

What is the Mobile Broadband Service?

2.1 The Mobile Broadband Service provides access to the internet over a Wireless network we acquire from a wholesaler, and we resell that access to you. The wireless network is owned by Optus Mobile (**The Optus Network**). Depending on the Plan chosen, the device used and network availability the Service uses:

- (a) the 2100MHz/900MHz frequency bands of the Optus Network (**3G Dual Band Network**);
- (b) the 2100MHz frequency band of the Optus Network (**3G Single Band Network**);
- (c) the 1800MHz frequency band of the Optus Network using LTE technology (**4G Network**); and

IINET GROUP CRA – MOBILE BROADBAND SERVICE DESCRIPTION

- (d) the Optus GSM/GPRS network.

Coverage for the Mobile Broadband Service is not available in all areas. 4G Network coverage is only available in limited areas of Perth, Sydney, Melbourne, Brisbane and Gold Coast. The 4G Network can only be used with a compatible device and on a 4G Plan. The 4G Network may also be unavailable for other reasons including during periods of network congestion. Where a 4G compatible device is used but there is no 4G Network coverage in the area or the 4G network is otherwise unavailable, the service will utilise the 3G Dual Band Network if available.

Contract Term

- 2.2 The Service is a month to month service. After the end of each month, we will continue to provide the Service until it is cancelled in accordance with the CRA.

Service Requirements

- 2.3 To receive the Service you must

- (a) meet any applicable System Requirements; and
(b) have the equipment referred to in clause 3.

- 2.4 The Service is only available in the areas described in clause 4.

- 2.5 You acknowledge that:

- (a) you may not be able to receive the Service at your location;

- (A) running a network connected to the Service;
- (B) running a network or providing network service to others for the Service;
- (C) running connectivity software other than that provided by us with equipment we supply to you for use with the Service; or

- (d) Unless expressly stated otherwise by us, we do not guarantee that any modem device that we provide to you in connection with the Service will be compatible with any particular machines or network of machines.
- (e) We do not guarantee that your connection to the internet will achieve any specific speed at any given time. Actual speeds will vary due to factors such as distance from the network point of presence, the capacity and load of that point of presence, your hardware and software, the number of individual end users using the Service at the same time and the source of the content you are accessing.

IINET GROUP CRA – MOBILE BROADBAND SERVICE DESCRIPTION

- (f) We will use due care and skill in providing the Service in accordance with the Consumer Guarantees. Subject to the Consumer Guarantees, we cannot promise that the Service will be continuous, fault-free or accessible at all times, given the nature of telecommunications systems (including the Service's reliance on systems and services not owned or controlled by us). This does not limit your rights in relation to Interruptions to the Service set out in clauses 14.4 to 14.8 of the General Terms.

3. EQUIPMENT

The Equipment

- 3.1 To connect to the Mobile Broadband service you will need a PC, laptop or other device which can connect to the Internet by means of a wireless connection with Windows XP or higher or a Mac with OSX or higher installed. Depending on which hardware option you chose we will provide you with:
- (a) a SIM card for use with your own modem device that is approved by us for use with the Mobile Broadband Service;

 - (c) a mobile broadband tablet device with SIM card.

4. COVERAGE

Service availability

- 4.1 The Service is only available within the Optus Network coverage area and is subject to network availability.

Coverage Area

- 4.2 It is your responsibility to establish whether the location at which you wish to use the Service is within the Optus Network coverage area. To assist you we provide coverage maps which are available on our Website.

Grace Return Process

- 4.3 If:
- (a) your principal place of usage of the Mobile Broadband Service is within the Optus 3G Dual Band, 3G Single Band Network or 4G Network coverage area; and
 - (b) within 10 days from the date of the service activation, you report to us any coverage related issues relating to the use of the service at your principal place of usage,

Mobile Broadband Service in combination with a tablet device supplied by us

- 4.6 If we agree to exercise the grace exit process, and we have supplied a tablet to you in connection with the Mobile Broadband Service, we will release you from your Mobile Broadband contract without charging you a Break Fee but you will not be entitled to return the tablet to us under the grace exit process (because you could still use the tablet in connection with a fixed broadband service supplied by us or another supplier) and you must pay:
- (a) the full price of the tablet (if you are purchasing the tablet on a repayment plan, the repayment plan will be cancelled and you will be required to pay the sum of the amount of the remaining instalments under the repayment plan); and
 - (b) any excess usage costs incurred.

5. FAULTS

Fault Reporting

- 5.1 If you become aware of any fault with the Service immediately report the fault to us by telephoning or emailing a Customer Service Representative.

6. QUOTA & SHAPING

No Freezone, WAIX, or PIPE

- 6.1 The Mobile Broadband Service does not have unmetered access to our Freezone. All traffic is counted towards your monthly quota allowance, including WAIX traffic and PIPE traffic.

Excess usage (no shaping)

- 6.2 All traffic, both downloads and uploads are counted towards your quota allowance. Any unused part of your quota allowance expires at the end of the month and is not carried over to the next month. When your usage exceeds your allowance you will

be charged at the rate specified in the Pricing Schedule. You will be sent a notification by email when you approach your usage quota allowance.

Usage Monitoring via Toolbox

- 6.3 It is your responsibility to monitor your usage and any unused allowance at the end of period will not be carried over for use in the subsequent month. Real time data monitoring is available for 3G Plans via Toolbox. Real time data monitoring is not currently available for 4G Plans via Toolbox. We are reliant on Optus to provide us with usage information regarding 4G Plans, and there will usually be a delay of up to 48 hours (or in some instances longer) in the usage information on Toolbox for 4G Plans.

Other Usage Monitoring

- 6.4 The modem devices and tablet devices that we supply to you may include real time data usage monitoring functionality (**Device Usage Monitoring**). Instructions on how to use Device Usage Monitoring are provided in the user manual for the devices. You should use Device Usage Monitoring as a guide only as it may not use the same methods for calculating usage as we do. For example, the Device Usage Monitoring may not monitor both upload and download traffic usage whereas both upload and download traffic counts towards your quota allowance and any excess usage charges.
